Prologue

'Images of Kuala Lumpur' brings together a compilation of photographs that captures the urban fabric and culture of the City.

The photographs in this book have been selected from over 1,000 entries. The photographs came from all walks of life, young and old, from all the races of the country. This book encapsulates the richness not only from the aesthetic but the multi-racial and multi-religious facets of the City's population.

In fact, the photographs are a snapshot of what can be found throughout the country. Hence, the uniqueness of Malaysia..... Truly Asia.
